Sacramento, CA 95814

RE: AB 1892 (Jones-Sawyer) – CalFRESH
AAP-CA Position: Support

Dear Governor Brown,

The American Academy of Pediatrics, California (AAP-CA), representing over 5,000 California pediatricians, supports AB 1892 (Jones-Sawyer), which would require each county human services agency, to the maximum extent permitted by federal law, to provide transitional CalFresh benefits to households terminating their participation in the Cash Assistance Program for Aged, Blind, and Disabled Legal Immigrants or the County Relief, General Relief, or General Assistance program, and to nonminor dependents exiting foster care.

Per the National Foster Youth Institute (NFYI), more than 23,000 children age out of foster system each year and 20% become homeless. It is critical to include transitional CalFresh benefits for youth aging out of foster care. Food insecurity, the state of not having enough resources to afford healthy and nutritious food, is a major problem for foster youth aging out of the system and is linked to poorer health outcomes – obesity, diabetes, heart disease, learning issues, mental health issues and weakened bones.

Existing federal law provides for the federal Supplemental Nutrition Assistance Program (SNAP), known in California as CalFresh, under which supplemental nutrition assistance benefits allocated to the state by the federal government are distributed to eligible individuals by each county. AB 1892 (Jones-Sawyer) would ensure that households terminating their participation in Cash Assistance Program for Aged, Blind, and Disabled Legal Immigrants or the County Relief, General Relief, or General Assistance program, and nonminor dependents exiting foster care, are provided these transitional benefits.

AAP Policy states “SNAP benefits reduce both the rate (decrease of 4.4% attributable to SNAP from 2000 to 2009) and, more importantly, the depth of poverty for children in the poorest of poor families.”

AB 1892 (Jones-Sawyer) would provide households the necessary nutritional support as they transition out of assistance programs. Families will not go hungry because of easier and effective access to food assistance, thus improving the health and well-being of children across the state.

Pediatrician members of AAP California Chapters 1, 2, 3 and 4 statewide respectfully request you to sign AB 1892 (Jones-Sawyer) into law. Thank you for your public service and leadership on behalf of the health and wellbeing of

children, youth, and families in California.

Sincerely,

A handwritten signature in black ink, appearing to read "Susan Wu". The signature is fluid and cursive, with a large initial "S" and a distinct "W" at the end.

Susan Wu, M.D., Fellow of the American Academy of Pediatrics
